- Current rankings are now available on the website, please check for errors and notify TD or ATD

- Chris Jones has taken over all duties of ATD from Steve Gamble
- There are still significant issues with the standard of completion of weekly score sheets
 - Sheets are not signed by team players
 - Signatures are not those of players ie fraud is being committed
 - Use of nicknames rather than full names
- Next season a more strict interpretation will be imposed, score sheets incorrectly completed will be deemed unacceptable, and no points award for result or frames played.
- Next season nomination forms to be completed in full prior to submission or nomination will not be accepted.
- Registration fees for next season
 - Half with nomination form, half when draw is collected
 - Mick Sewell asks that if such is introduced that rego envelopes be available early
 - Other team player names, only First name and last initial (for 2 players with same name) are needed
- Captain connection with team needs to improve
 - Wed night only is not acceptable
 - Organize a get together to complete form for next season prior to end of current season
- Bonus point is a reward
 - Some captains still fail to comply with requirements
 - Alternative is that should captains fail to comply with requirements rather than an extra point teams will be stripped of **all** points (rankings, frame %, win)
- Strictness is needed as we continue to grow.
