## **Match Sheet**

#### Step 1: - Player List

Click on Player List as shown below and review your team list e.g. Check all your players are listed, their names are spelt correctly and add players. NOTE: If you are adding a new player you must register them with Matt Harmon prior to playing and adding them to your team. Most of the time if you have registered a new player in your team I will have already added them and they will appear in your Team list. If you add a player and they have not been registered all their frames will be forfeited.

Then you need the away captain to log-in and accept the results. This is affectively a signature that both captains agree on the results.

You will see there is a dispute button..... I don't ever see this being used, but if you are in dispute and don't agree with the score, put a comment in the captains Comment box and click DISPUTE RESULT. This information will come through to TD and I will be in contact

To log-in as away captain.... Click on Log in as bottom of sheet, and then enter your password.
