**Reference:** ACT Eight-Ball Association By-Laws. Version 9 January 2023

## Proposal to amend By-Laws 22 and 23

The following is submitted to the ACTEBA for consideration by Captains at the next available Captains Meeting. Health Newport, Matt Harmon, Graham O’Connell and Clive Hardisty met at the Harmonie German Club to discuss the current ‘Rankings System’ used to grade teams playing in the weekly ACTEBA competition. We have put forward additional amendments to Version 0.4 of this document.

This proposal addresses concerns raised by captains at the ACTEBA captains meeting and others that have contributed to the amendments. We request that the ACTEBA committee put forward the following motion and vote on the proposed changes at the next ACTEBA Captains meeting. We propose these changes are voted on and if passed, are used to determine the ‘Team Rankings’ prior to the Summer 2025 season.

## Version 0.5 - Proposal to amend By-Laws 22 and 23

History of proposed changes.

|     |                                                                                                      |                  |
|-----|------------------------------------------------------------------------------------------------------|------------------|
| V01 | Original proposal tabled.                                                                            | July 15, 2024    |
| V02 | Addressed changes and incorporated rules that are applied to new and disbanded teams.                | August 30, 2024  |
| V03 | The Team Ranking formulae has been added                                                             | October 30, 2024 |
| V04 | 22 c-e updated                                                                                       | November 1, 2024 |
| V05 | Captain’s meeting edits. Yellow highlights to be deleted. Current to the most recent season changed. | November 4, 2024 |

## Current by Laws 22 and 23

22. The weekly competitions will be graded into divisions by the Tournament Director. The winning team from the previous competition in each division will be promoted to the next division, and the last placed team in each division will be relegated to the division below. Teams will then be split into divisions, based on the individual players rankings of the top 6 players in each team. The Tournament Director shall make every effort to ensure there are no less than 6 teams in each division.

23. Teams that qualify for the Final Series (refer By-Law 38) shall not be eligible for relegation to a lower division the following season, regardless of ranking points. Similarly, teams that fail to qualify for the Final Series of any division shall not be eligible for promotion to a higher division. A team is considered the same if 50% or greater of the registered members from the previous season remain. No team shall be promoted or relegated more than a single division in one season.

## Proposed changes to by Laws 22 and 23

22. The weekly competitions will be graded into divisions by the Tournament Director. Teams will be split into divisions based on the Team Ranking of each team. The Tournament Director shall make every effort to ensure there are no less than 6 teams in each division.

### Definitions

'**ACTEBA's Ranking System Multiplier**' is defined in the ACTEBA Ranking System. Currently 200, 150, 125, 100 and 75 for the top division to the last, respectively.

A '**Players Points**' are the players individual for/against percentage that each player receives from playing in the ACTEBA weekly competition. Only the most recent seasons results are applied.

A '**Players Grading**' is the 'Players Points' multiplied by the 'ACTEBA' Ranking System Multiplier'. This is not to be confused with a **Players Ranking** which includes ACTEBA Trials events. The 'Players Grading' is only used to calculate the '**Team Ranking**'.

A '**Team Ranking**' is the sum of the top 6 players 'Players Grading'.

### Team Rankings Example:

- i. A player in Div. 1 obtains 73% for the season. The '**Players Points**'.
- ii. The **ACTEBA Multiplier** is **150** for 1<sup>st</sup> Division.
- iii.  $150 \times 73\% = 109.5$  = an individual '**Players Grading**'
- iv. The sum of the top 6 players '**Players Grading's** = the '**Team Ranking**'.

- a) The winning team from the weekly competition in each division will be promoted to the higher division.
- b) The last placed team in each division will be relegated to the division below.
- c) The competition ladder at the end of the season determines a team's finishing position and dictates the order applied for a Team Ranking comparison between divisions.
- d) After removing the winning and relegated teams (see clauses 22(a) and 22(b), a second team may be promoted if the '**Team Ranking**' of the highest placed team in a division is higher than the lowest '**Team Ranking**' of the division above it.
- e) If multiple gaps occur, rules 22(c) and 22(d) will be repeated until the higher division is filled.
- f) Teams that qualify for the Final Series (refer By-Law 38) shall not be eligible for relegation to a lower division.

### 23. New and reformed teams

- a) A team is considered the same if 50% or greater of the registered members from the previous season remain.
- b) The placement of any new team/s will be determined by the Team Ranking system.
- c) The lowest placed team/s in a division may be relegated due to the entry of a New Team/s if the new Team Ranking is higher.
